● ABOUT ME

Full-Stack Software Engineer with experience building responsive web applications and production-ready software using React.js, JavaScript, Node.js, Express.js, REST APIs, SQL/NoSQL databases, and modern deployment tools. Experienced in developing SaaS and business applications, database schema design, API development, debugging, version control, CI/CD, and cloud deployment. BS Software Engineering graduate with hands-on experience delivering live software products.

● WORK EXPERIENCE

05/11/2024 - 24/08/2026 - SWABI, PAKISTAN

TECHNICAL INSTRUCTOR & COMPUTER SCIENCE EDUCATOR AMERICAN LYCETUFF DNK STEM SCHOOL SYSTEM

- Taught programming fundamentals, computational logic, algorithms, and web debugging.
- Managed computer lab operations, practical coding projects, and student code reviews.

02/08/2021 - 13/06/2024 - PESHAWAR, PAKISTAN

WEB DEVELOPER WQ SOFTWARES

- Built and maintained responsive web applications using JavaScript, Node.js, and RESTful APIs.
- Collaborated on database schema design (SQL/NoSQL) and optimized data querying performance.
- Managed version control, code reviews, and production deployments via Git and GitHub.

● SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive UI | Backend: Node.js, Express.js, REST APIs, Microservices, Python (Django), Authentication | Databases: PostgreSQL, MongoDB, Supabase, SQLite, Schema Design | Cloud & DevOps: Docker, Kubernetes, CI/CD (GitHub Actions), Git/GitHub, Vercel, Render | AI & Tooling: Prompt Engineering, MCP, AI-Assisted Dev (Cursor, GitHub Copilot)

● LIVE PRODUCTION PRODUCTS

ShiftPOS — Point of Sale & Inventory Engine

- Engineered a full-stack retail POS application managing real-time orders, dynamic cart calculations, and inventory tracking.
- Developed robust backend API routes in Node.js/Express with database persistence and printable receipt generation.
- Deployed and configured production hosting on Render with environment security best practices.

Link <https://shiftpos.onrender.com/>

ALS — Advanced Institutional Library Management System

- Built a cloud-hosted library management suite for book cataloging, search indexing, and automated student circulation.

- Designed responsive React interfaces with instant client-side search filtering and stateful checkout workflows.
- Configured continuous automated deployment pipelines via Vercel.

Link <https://als-library.vercel.app/>

ShiftPOS – Barcode Generator Studio

- Developed a high-speed, browser-based barcode generation tool for inventory labeling and asset tracking.
- Implemented multi-format support (Code128, EAN, QR) with real-time vector (SVG) and raster (PNG) export capabilities.
